

Power, Protect and Connect the Edge

POWER EDGE

Power Edge supplies, installs and services Uninterruptible Power Supplies (UPS) devices.

UEI: JR5RQ8NMPDW5 | DUNS: 080392283 | CAGE Code: 7QN36

Company Profile

New York State Certified Service-Disabled Veteran-Owned Business

Power Edge supplies, installs and services the following equipment: generators, Uninterruptible Power Supplies (UPS) devices, Power Distribution Units (PDU) and air handlers. Our solutions ensure your power infrastructure has the greatest reliability possible.

Core Competencies

Power Solutions

- MDF (data center) / IDF (closet) design / Edge engineering
- Onsite or online / phone consultants who are experts in the field of IoT/The Edge, IDF and MDF closets
- Single Phase and Three Phase

Procurement

- Certified vendors for: APC, Triplite, Eaton, Staco, Liebert, Avocent, Geist, Blue Star Generators
- Turnkey solutions

Installation

- UPS, PDU installation, maintenance and removal
- Certified technicians, installation, testing and tagging
- Generators, Load Banks, Power Factor Correction
- Hot air / cold air aisle containment engineering & installation

Monitoring

- 24 x 7 x 365 Emergency Remote & On-site Support available
- Monitoring software installation
- Onsite or online / phone consultants who are experts in the field IoT/The Edge, IDF and MDF closets

Maintenance

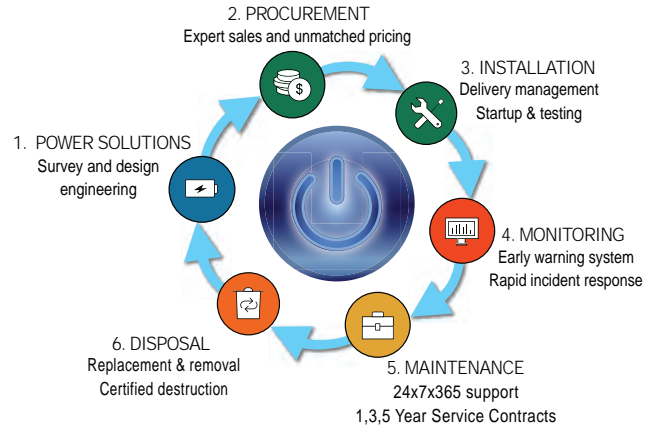

- Guaranteed Parts and Labor Service Contracts
- Same Day Replacement for Uninterruptible Power Supply (UPS)
- Full warranties
- Arc Flash studies, Switchgear testing

Disposal and Recycling

- Battery and equipment removal, disposal and recycling per state federal, HIPAA and EPA standards and regulations.
- Certificate of Destruction (COD) and asset tagging, which lists all disposed equipment

Certifications

- NY Service-Disabled Veteran Owned Business #171406
- CT Veteran Owned Micro Business Certified
- CT DAS SBE Certified

Key Differentiators

- **Cost effectiveness** – The Power Edge proactive approach to UPS maintenance vs. the traditional reactive emergency service lowers overall cost and significantly reduces downtime
- **Comprehensive asset management** - Critical Asset Aging -allows clients to pro-actively plan for battery, capacitor and asset replacement
- **Remote monitoring** - Real-time notifications of UPS unit and battery health. Absolute cybersecurity ensured as system operates over a cellular network without IP address
- **Safety prioritization** - All technicians have extensive OSHA qualification including OSHA 30 and specialties such as bloodborne pathogens and can operate in any hospital system
